

INDUSTRIAL AND LABOR SUPERINTENDENT J. M. DAVIS RECEIVES PROMOTION.

Has Been Placed in Charge of the Allegheny Division of the Erie Road, One of the Most Important on the System—W. H. Barrett, of Port Jervis, Superintendent of the Delaware Division, Succeeds Him. Timely Suggestion of an Employer Regarding Relations Between Employers and Employees.

J. M. Davis, who has been superintendent of the Wyoming division of the Erie railroad during the past two years, with headquarters in Dunmore, has been appointed superintendent of the Allegheny division of the Erie railroad.

W. H. Barrett, of Port Jervis, superintendent of the Delaware division, will succeed Mr. Davis. The change will occur tomorrow. During Superintendent Davis' administration he has demonstrated his ability as a premier railroad man. The division to which he goes is one of the most important on the system.

Mr. Barrett comes here well recommended, his advancement having been rapid and steady. Three years ago he was trainmaster on the Susquehanna division.

An Employer's Suggestions. A large employer of labor, in this city, communicates the following suggestions regarding dealings between employer and employee:

First of all the union must be thoroughly organized, with intelligent, conservative, and competent leaders at the head. Then each member is to be assessed say \$10 per man, which serves as an initiation fee. As soon as the union has a membership of 10,000 members, this assessment will create a fund of \$100,000. Application should then be made to the courts for a charter, as an organization with a capital stock of \$100,000.

The dues of each member to be placed at a month per man, to defray the expenses of the organization. Application is then to be made to a reputable banking institution for a guarantee bond, which will insure each member against loss.

Insurance features, sick benefits and other funds to be created in each local branch of the organization to insure the members against loss of time by accident or sickness and protection for the widows and orphans in case of death. Another feature is the introduction of educational classes.

Still another feature is the establishment of a permanent home for aged and indigent members, and schools for the education of orphans and permanent employment bureaus for men and women identified with the organization.

When these features shall have been established, a conciliatory committee shall be appointed representing each local organization, and this committee shall draft a fixed scale of wages to apply to the district wherein the locals represented are established.

A general conciliatory committee is then to be formed by the various representatives of the different districts in which one or more corporations or companies operate. The fixed scale of wages governing the employment of all men, women and children is to be submitted to the directors or board of managers representing the employing interests.

In addition to this scale a bona-fide guarantee is also to be submitted agreeing to carry out the provisions of the contract submitted, together with the endorsement of the company carrying the guarantee bond. This contract to be binding for a period of years suitable to both parties to the contract. At the expiration of the said contract representatives of both interests to meet and readjust whatever differences arise meantime and fix upon a similar scale for another term of years.

Under this proposition the employers can make contracts for their product and fix the market price. This scheme will include recognition of the organization, a fixed scale of wages, permanent employment, and a community of interests between employer and employee.

If such an arrangement can be established, the employer has outlined the plan for The Tribune feels confident that all of the corporations and companies will only be too glad to sign the scale, give a similar bond and do all in their power to encourage the friendliest of relations.

D. L. & W. Board for Today. Following is the make-up of the Delaware, Lackawanna and Western board for today:

WEDNESDAY, JULY 30. Extras East—7 a. m., work train, M. Finney. Summits West—6 a. m., Carlg. Pushers—7 a. m., Lamping; 8 a. m., Houser; 11:45 a. m., Moran; 7:30 p. m., C. Bartholomew; 9 p. m., Case. Helpers—1:30 a. m., McGovern; 7 a. m., Widner; 10 a. m., Coslari; 3:15 p. m., Stanton.

NOTICE. John Gahagan will run Wolcott's crew on Wednesday, July 30, and Thursday, July 31.

This and That. Contracts placed by the railroads of the country for new rails to be delivered in 1903 aggregate 1,000,000 tons. Work is to begin at once on the building of a new and modern passenger station and freight depot for the Lehigh Valley in Mauch Chunk.

In the first six months of the current year Great Britain exported 15,000 tons of steel and iron to this country, compared with 56,000 in the same period in 1901.

Forty years ago the silk goods made

\$100 Reward, \$100. The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists. 75c. Hall's Family Pills are the best.

In the United States were only 13 per cent. of the entire consumption. The percentage rose to 38 in 1880, to 65 in 1890 and to 80 in 1900. According to rumor the Philadelphia Rapid Transit contemplates building its own cars in the near future. For this purpose a suitable site has been secured in West Philadelphia where, after the new shops have been erected, early in the fall, it was said, hundreds of mechanics will be employed.

LETTER FROM MR. CRAWFORD

[Concluded from Page 3.] and call more than double the number of your members by name than you can, and I know their feeling as well as you do. When I meet any of my old friends who have worked alongside of, or those who have worked for me, they invariably tell me that they know the strike is lost, but they are ashamed or afraid to return to work.

I also acknowledge that the majority of men that have applied for work at the Oxford colliery and those who are now working, are men that have worked for me in former years, and I could call nearly all of them by name on sight when they made application, and that the majority of them are miners holding certificates of qualification and late members of your union.

SHERIFF AT CARBONDALE. The anticipated repetition of the riotous scenes of Monday at the North-west breaker of the Temple Coal and Iron company in the village of Simpson was averted yesterday by the presence of Sheriff Schadt.

The sheriff was hustled to Carbondale in a special train and thence to Simpson, arriving at the Northwest about 6:30. He waited there until 7 o'clock, but there was even no necessity for him to alight from the train. There was little, if any interference, and when he was assured by the force of men at work on the new breaker that his intervention was unnecessary, he withdrew and was conveyed to the Powderly mine of the Delaware and Hudson, in Carbondale township, just south of the city limits of Carbondale.

The miners had a couple of hundred pickets about the mine and succeeded in temporarily turning the few men back who are at work there. The men returned, however, after the strikers fell back somewhat. There was no demonstration of any sort at this point.

Nothing happened at the Coalbrook breaker of the Delaware and Hudson. A few pickets were at the Dundaff street crossing and further up Dundaff street, but approached to the place as early as 6:30, but there was no stopping of men.

James Walsh, a company man at the Northwest, was stopped by a number of foreign women, who carried stones and were assembled at Monkey Run. Walsh spoke threateningly of what he might do, as he was prepared for an attack. This hint made the crowd fall back and let him go in peace.

OTHERS MOLESTED. George Helmes, another company man, was aroused from his home at 4 o'clock on Monday morning by a crowd, and was later informed that his life had been threatened by some of the strikers. Still another one of the men had stones hurled at him while fixing a steam pipe on the hill below the breaker and had a narrow escape from being struck. After these attacks, the men were provided with arms and will likely resist another onslaught.

It appears that it is not the carpenters on the breaker who are the objects of attack, but the old employees of the company, minor bosses and laborers, who elected to remain with the company. They have been employed, principally, in grading about the breaker, laying tracks, etc.

The women whom John Butler had arrested on Monday night, on charges of attacking him with stones, eggs, etc., supplemented by their tongues, waived a hearing and entered bail before Justice Thomas Holmes, of Simpson.

Racket Brook washery was operated yesterday without any interruption. A gang of men assembled on Canaan street, at Pender's, but it dispersed itself when it was realized that only a few men responded to work, about 8:30 the washery was commenced and ran uninterrupted until quitting time. Sheriff Schadt also visited Racket Brook to satisfy himself that everything was all right.

A mass meeting of Dunmore strikers is to be held today. It will be addressed by the prominent Mitchell and others. The West Side strikers will have a mass meeting Friday at the Round Woods. President Mitchell will again be one of the speakers.

The first break among the firemen at Olyphant occurred yesterday when they returned to work in a body to the Miles steam plant and No. 2 colliery, both places operated by the Delaware and Hudson company.

TROUBLE AT DURVEA. Durvea almost had another serious labor disturbance yesterday morning, when the Warnke Coal company brought a dozen or more men to its washery just below the depot in that borough for the purpose of resuming operations. As was the case yesterday, when it was expected that several hundred gathered on the scene early. When the D. L. & W. train arrived at Durvea this morning about 6:30 o'clock a dozen men alighted and hurried to the office at the washery, where they kept well out of the crowd which was there to all appearances with the motive of preventing all attempts to commence work. The officials of the company telephoned to Sheriff Jacobs for assistance and seven deputies were dispatched to the scene. Before the arrival of the deputies, however, the officials decided to take their men back to Scranton, and as the 9:30 train approached the depot the imports made a dash for it, amid a shower of stones from the crowd. One of the men was hit in the neck with a rock and felled to the ground, but was not badly injured. The crew of a shifting train which brought empty cars to the washery also had a lively time with the crowd and before the engine pulled out several of the windows in the cab had been broken with stones.

There will be a meeting of Local Union No. 637, United Mine Workers of America, at Co-operative hall tomorrow afternoon at 3 o'clock.

FOREST CITY. Special to the Scranton Tribune. Forest City, July 29.—Rev. W. Hollinshead expects to take his annual vacation next week.

The local constables made their quarterly returns to court yesterday. J. P. Rudnicki, of Plymouth, was

OSTEOPATHY. What It Is. Osteopathy is that science of treating diseases of the human body which regards disease as the product of an obstruction to or derangement of nerve force and circulation, and undertakes by manipulation, and by manual stimulation or inhibition of nerves and nerve centers, to remove the obstruction or correct the derangement, so that nature may resume her perfect work. What It Does. Osteopathy is the surest, quickest, and in many cases the only cure for Rheumatism, Neuralgia, Neurasthenia, St. Vitus Dance, Catarrh, Asthma, Hay Fever, Paralysis, Goitre, Stomach Troubles, Female Complaints, Liver Troubles, Bowel Troubles, Joint Troubles, Spinal Troubles, Deformities and many other chronic and lingering affections. Where to Get It. For Osteopathic treatment you should consult Dr. Herbert I. Furman, who has in the Green Ridge Sanitarium, located at 1530 N. Washington avenue, Scranton, Pa., the best equipped Osteopathic institution in the East. His city treating rooms in the Carver Building, corner Adams avenue and Linden street, are open daily from 9 to 12. Call at his nearest office for free examination. Literature and consultation in person or by mail, free. Treatment at your home by appointment. Lady assistants. Both 'phones.
